

Evergreen Quake 2012 Logistics Exercise

July 25, 2012

Chris Utzinger, Washington Emergency Management Division

Purpose & Scope

The purpose of the Logistics Exercise is to validate the combined local, state, and federal capability to manage resources after a major regional disaster.

The exercise will simulate an emergency supply chain including a federal staging area, a state staging area, and multiple community points of distribution as well as the distribution of medical supplies and the operation of a federal medical shelter.

Exercise Type & Duration

Drill. A drill is a coordinated, supervised activity that is usually employed to test a single specific operation or function in a single agency.

Full-Scale Exercise (FSE). A full-scale exercise is a multi-agency, multi-jurisdictional, multi-discipline exercise involving functional (EOC) and “boots on the ground” response.

The exercise will 3 days of play at the federal level, 2 days of play at the state level, and 1 day of play at the local level.
